Ethan Zaruba-Walker

Emeryville, CA | (512) 694-4844 | rocketwalker@gmail.com

SUMMARY

EMT certified in California (RC Health Services, 2024). My card lapsed less than one year ago and I am reinstating it now. Outdoor generalist with AIARE 1 avalanche safety and rescue training, and a customer-facing professional with two years in IBM's Customer Support organization and three years as the sole point of contact for every client of my own consulting practice. Fully open availability, including nights, weekends, and holidays. I show up for the shifts I am given.

CERTIFICATIONS

- **Emergency Medical Technician**, RC Health Services (2024). California card lapsed under one year; reinstatement in progress (continuing education or refresher, plus skills verification).
- **AIARE 1 Avalanche Safety and Rescue**, Bondi Outdoor Leadership (March 2022): avalanche terrain recognition, group decision-making, companion rescue.

CORE STRENGTHS

- **Safety and emergency response:** EMT-certified (2024) and AIARE 1 trained; trained to assess a scene, follow safety protocols, and stay calm under pressure.
- **Reliability:** run my own scheduling, communications, and billing across multiple concurrent clients; live aboard and maintain a 1966 sailboat on SF Bay, where daily upkeep is non-negotiable.
- **Clear communication with the public:** eight years turning technical detail into plain language for non-technical people; listen first and ask questions until the real need surfaces.
- **Physical work:** comfortable standing a full shift, bending repeatedly, lifting 40 pounds, and working with my hands.
- **Outdoors:** regular cyclist (commute and community rides), skier, sailor.
- **Languages:** English (native), Spanish (conversational).

EXPERIENCE

Founder & AI Solutions Consultant, StaffRoom AI, Emeryville, CA **2023–Present**

- Own every client relationship end-to-end, from first conversation through delivery and ongoing support, on engagements up to $18K.
- Lead discovery sessions that surface what customers actually need, then explain the work in plain language.
- Trained and supported an agency team through a new content production system as production volume grew 10x.

Data Engineer / Cognitive Software Engineer, Customer Support, IBM, Austin, TX **2018–2020**

- Built tools for front-line support engineers, cutting time-to-resolution on the most common customer issues to a single response.
- Eliminated 1–3 hours of per-case prep work for support engineers by automating log analysis.
- Trusted with sensitive customer data under GDPR-compliant controls; wrote plain-language release notes for customers.

Machine Learning Engineer (Intern), Valhalla Healthcare, Remote **2021**

- Built an ML model translating handwritten clinical notes into structured data (F1 80.03). Software role, not patient care.

EDUCATION

B.S. Information Science, University of Colorado Boulder **2018–2023**

Major GPA 3.7 · Certificate of Cognitive Science · Coursework includes Personal Health Informatics (INFO 4871). Senior capstone: Gamifying Outdoor Education in Software.
