EXPERIENCE

StaffRoom AI

Emeryville, CA

Founder & AI Solutions Consultant

October 2023 - Present

- Lead customer discovery and map the current process, files, and systems before any automation. Write the SOW the build follows. Engagements have reached \$18K.
- Design and deploy low-code workflows in n8n with REST APIs and webhooks, then leave a playbook the operator can run.
- Automated an IT MSP's pre-sales risk assessments and trained that team to extend the workflow. Processing time fell 98% against a measured baseline.
- Configure prompts, review gates, and pass/fail metrics for LLM workflows. A content-scoring evaluation had to reach 95% agreement with human reviewers.
- Built production Notion API integrations in TypeScript and Python, including a public OAuth app and CI that tests live third-party API connectivity.
- Delivered EZ-AI, problem-first workshops that train domain experts to judge and extend the system after handover. Claude Code is the daily build tool.
- After launch I stay on the account: resolve user issues, keep a living backlog, and fold the next change into the reusable workflow instead of a one-off.

IBM

Austin, TX

Data Engineer / Cognitive Software Engineer, Customer Support

August 2018 - December 2020

- Ran Design Thinking sessions with support engineers, then wrote the release notes that walked mixed technical and non-technical stakeholders through each change.
- Built DRE Bot, a Watson NLP Slack app in the channel the team already used, cutting the most common issues from a multi-touch case to a single response.
- Shipped IBMLogAnalyze, a GDPR-compliant pipeline and dashboard that removed 1-3 hours of per-case log prep, plus Tableau and Cognos dashboards for operations leaders.

Valhalla Healthcare

Remote

Machine Learning Engineer (Intern)

May 2021 - August 2021

- Built a Python model that turned handwritten clinical notes into a structured data model (F1 80.03), with a human still checking the output.

EDUCATION

University of Colorado Boulder

Boulder, CO

B.S. Information Science; Major GPA 3.7 | Certificate of Cognitive Science; Dean's List

August 2018 - May 2023

IBM

Online

Systems & Solutions Architecture Professional Certificate (in progress)

expected July 2026

- BPMN and process improvement; IT systems design and analysis; cloud-native delivery, DevOps, and Agile.

SKILLS

Deployment: n8n, REST, JSON, webhooks, API connectors, process mapping, solution specs, playbooks, stakeholder timelines. **AI workflows:** prompts, evaluation, human review gates, Claude Code, MCP, Claude / OpenAI / Gemini APIs. **Languages:** Python (primary), TypeScript (production integrations), SQL.
