EXPERIENCE

StaffRoom AI

Emeryville, CA

Founder & AI Solutions Consultant

October 2023 - Present

- Led client discovery meetings with active listening and process mapping: interview notes, user journeys, current-state process diagrams, and the files, data, and systems each step used.
- Wrote each statement of work as the specification for the build: target workflow, source data, and milestone acceptance criteria, then held delivery to those criteria through pilot and launch.
- Mapped an IT managed-service provider's pre-sales risk assessments, automated the manual steps, and trained that team to run the workflow. Processing time fell 98%.
- Led discovery, workflow design, and operator training for a Notion content system, raising production volume 10x.
- Set a 95% human-agreement production KPI on a content-scoring test built from the client's labeled examples.
- Rebuilt an ingestion pipeline in Python and SQL: throughput up 99.8% in four months, cost down 86%.
- After launch, tracked issues and enhancement requests on a backlog and shipped the fixes on the same milestone plan.

Valhalla Healthcare

Remote

Machine Learning Engineer (Intern)

May 2021 - August 2021

- Built a Python model that turned handwritten clinical notes into a structured data model (F1 80.03).

IBM

Austin, TX

Data Engineer / Cognitive Software Engineer, Customer Support

August 2018 - December 2020

- Led Design Thinking sessions, documented the support workflow, and wrote release notes for each product change.
- Built DRE Bot, a Watson NLP Slack app that cut common-issue resolution to a single response.
- Shipped IBMLogAnalyze, a GDPR-compliant SQL dashboard that cut log prep from 1-3 hours to zero.
- Built Cognos and Tableau dashboards that delivered operational insights to C-level executives.

EDUCATION

University of Colorado Boulder

Boulder, CO

B.S. Information Science, Major GPA 3.7; Certificate of Cognitive Science; Dean's List

August 2018 - May 2023

- Coursework in user-centered design, applied machine learning, and technical communication.

IBM

Online

Systems & Solutions Architecture Professional Certificate (in progress)

2026

- Completed BPMN (Business Process Modeling, April 2026) and Agile (Cloud Native, DevOps, and Agile, May 2026).

SKILLS

Discovery & delivery: process mapping, process diagrams, BPMN, user journeys, statements of work, functional requirements, milestone acceptance criteria, backlog, user training, active listening, cross-functional client meetings.

Build & analysis: Python, SQL (PostgreSQL), n8n, Notion API, Claude Code, Tableau, Cognos, Figma, GitHub. Human-in-the-loop review. Agile/Scrum coursework (May 2026).
