EXPERIENCE

StaffRoom AI

Emeryville, CA

Founder & AI Solutions Consultant

October 2023 - Present

- Mapped current-state workflows with operators, defined the KPIs the build would move, and reported measured results after launch so the team could see progress early and often.
- Modernized a data-analytics ingestion pipeline in Python and SQL, increasing throughput 99.8% in four months and reducing operating cost 86% versus the prior production stack.
- Built Python and SQL pipelines and a client-facing analytics dashboard from ingested case documents, with downstream analysis on the joined tables those pipelines produced.
- Set a baseline KPI for an IT MSP's pre-sales risk assessments, then automated the workflow and trained their team, cutting processing time 98% against that measured baseline.
- Designed a content-scoring evaluation from the client's labeled ground truth and required 95% agreement with human reviewers before the system could pass into production use.

Wiz Music

Barcelona, Spain

Community Development Intern

May 2022 - July 2022

- Diagnosed membership growth from the community's own analytics. Segmented churn by tenure cohort and joins by source, showed the reported growth was not organic, and raised it with the team.

Valhalla Healthcare

Remote

Machine Learning Engineer (Intern)

May 2021 - August 2021

- Built a Python ML model turning handwritten clinical notes into a queryable data model (F1 80.03).

IBM

Austin, TX

Data Engineer / Cognitive Software Engineer, Customer Support

August 2018 - December 2020

- Built and launched Tableau and Cognos BI dashboards that delivered operational insights to C-level executives. Led Design Thinking sessions so stakeholders shared one definition of each metric.
- Designed and deployed IBMLogAnalyze, a GDPR-compliant SQL pipeline and analytics dashboard that cut per-case log-analysis prep from 1-3 hours of engineer time to zero.
- Built a Flask system for pulling, joining, and analyzing support-log datasets in place at large scale.

EDUCATION

University of Colorado Boulder

Boulder, CO

B.S. Information Science; Major GPA 3.7 | Certificate of Cognitive Science; Dean's List

August 2018 - May 2023

- Senior capstone, Oasis: outdoor-education planner in Python and Streamlit that aggregated campground, weather, alert, and wildlife data, with Leave No Trace education in the product.

IBM

Online

Systems & Solutions Architecture Professional Certificate (in progress)

expected July 2026

- Completed Business Process Modeling (April 2026); IT Systems Design and Analysis; Cloud Native, DevOps, Agile.

Field credentials

Bondi Outdoor Leadership; RC Health Services

AIARE 1 Avalanche Safety and Rescue (2022) | Emergency Medical Technician (2024)

2022 - 2024

SKILLS

Analysis & reporting: SQL (PostgreSQL, SQLite), Python, Tableau, Cognos, data pipelines, BI dashboards, KPI definition and monitoring, pulling and joining large datasets, warehouse tables and views. **Collaboration:** cross-functional discovery with operators and executives, GitHub, documentation, training operators to own the system. **Outdoor domain:** AIARE 1, EMT, Oasis outdoor-education capstone, Strava GPX/Navionics pipelines. **Also:** 2nd Place, IBM Hackathon for Racial Justice (2020), Team Lead / Data Scientist; Tableau insights to executive judges.
