EXPERIENCE

StaffRoom AI

Founder & AI Solutions Consultant

Emeryville, CA

October 2023 - Present

- Sold and delivered every engagement end-to-end: paid discovery, SOWs, and milestone-gated delivery. Proof is a working system in the client's environment. Engagements up to \$18K.
- Built production REST API integrations in Python and TypeScript: a public OAuth app, data-source and page workflows, and CI that tests live third-party API connectivity.
- Daily MCP and agent work: Notion's hosted MCP server, Claude Code (skills, subagents, MCP servers), and Claude, OpenAI, and Gemini tool-calling in client systems.
- Automated an IT MSP's pre-sales cybersecurity risk assessments and trained their team to run and extend the workflow. Processing time fell 98% against a measured baseline.
- Modernized a data-ingestion pipeline (Python, SQL). Throughput increased 99.8% in four months and cost fell 86%.
- Designed a Notion-based content-marketing system and enabled the operators. Production volume increased 10x.
- After launch I stay: troubleshooting, issue write-ups, living backlogs, and Python, n8n, and Claude Code prototypes.
- Delivered EZ-AI: problem-first AI-fluency training so domain experts can judge and extend the system themselves.

Valhalla Healthcare

Machine Learning Engineer (Intern)

Remote

May 2021 - August 2021

- Built a Python/Keras model that turned handwritten clinical notes into an extensible data model (F1 80.03), with a person in the loop on unstructured documents.

IBM

Data Engineer / Cognitive Software Engineer, Customer Support

Austin, TX

August 2018 - December 2020

- Designed and deployed IBMLogAnalyze: GDPR-compliant SQL pipelines and an analytics dashboard that cut log-analysis prep from 1-3 hours per case to 0.
- Built DRE Bot, a Watson NLP Slack app that surfaced similar past cases to support engineers, cutting the most common issues from a multi-touch case to a single response.
- Led Design Thinking discovery with support stakeholders, shipped Tableau and Cognos dashboards to executives, and wrote the release notes for each change.

EDUCATION

University of Colorado Boulder

B.S. Information Science; Major GPA 3.7 | Certificate of Cognitive Science; Dean's List

Boulder, CO

August 2018 - May 2023

IBM

Systems & Solutions Architecture Professional Certificate (in progress)

Online

expected July 2026

- Completed BPMN and process improvement (April 2026); IT Systems Design and Analysis; Cloud Native, DevOps, Agile.

DeepLearning.AI

Deep Learning Specialization | TensorFlow Developer Professional Certificate

Online

2020 - 2021

SKILLS

Agentic AI: MCP servers, LangChain, LangGraph, multi-agent workflows, Graph RAG, Redis semantic caching, Claude Code (daily driver). **LLMs:** Claude, OpenAI, and Gemini APIs; prompt engineering and tool-calling. **Integrations:** Python, SQL/PostgreSQL, REST APIs, OAuth, webhooks, n8n. **Field delivery:** discovery and process mapping, SOWs, both sides of the signature, proof-of-value, enablement.
