## EXPERIENCE

---

### StaffRoom AI

*Founder & AI Solutions Consultant*

Emeryville, CA

October 2023 - Present

- Owned first contact for every engagement: answered email and calendar requests, kept records current in Google Workspace and Notion, and stayed the named owner through handoff.
- Interview operators, parse existing documentation, and map present-day workflows as process diagrams. Write the functional specifications the build follows.
- Automated an IT MSP's pre-sales cybersecurity risk assessments and trained their team to run and extend the workflow. Processing time fell 98% against a measured baseline.
- Designed a Notion-based content-marketing system and enabled the people running it. Production volume increased 10x for the agency teams who own the calendar.
- Delivered EZ-AI, problem-first AI-fluency training for adult domain experts, so process owners can judge and extend the system without a consultant in the room.
- After launch I stay with the team: resolve user issues, keep a living product backlog, report measured results, and take the next unowned operational task without waiting to be asked.

### Wiz Music

*Community Development Intern*

Barcelona, Spain

May 2022 - July 2022

- Ran community operations in English, Spanish, and Catalan. Diagnosed Discord analytics by tenure and join source, and raised with the team that the reported membership growth was not organic.

### IBM

*Data Engineer / Cognitive Software Engineer, Customer Support*

Austin, TX

August 2018 - December 2020

- Led Design Thinking discovery sessions to surface business needs, and authored the release notes and documentation that walked stakeholders through each application change.
- Designed and deployed IBMLogAnalyze, a GDPR-compliant data pipeline and analytics dashboard that eliminated 1-3 hours of per-case log-analysis prep.
- Launched BI dashboards in Tableau and Cognos that delivered operational insight to C-level reviews.

### Alpha Phi Delta Fraternity, University of Colorado Boulder

*Rush Chair / Executive Council*

Boulder, CO

January 2019 - December 2021

- Kept chapter academic records, wrote work-order RFPs, and maintained the recruitment profiles used to match prospects.
- Hosted rush events and owned the membership funnel from first conversation with a prospect to a signed bid.

## EDUCATION

---

### University of Colorado Boulder

*B.S. Information Science; Major GPA 3.7 | Certificate of Cognitive Science; Dean's List*

Boulder, CO

August 2018 - May 2023

### RC Health Services

*Emergency Medical Technician*

Texas

2024

- Patient assessment, BLS, and personal-care support, with radio and team communication under uncertainty.

### IBM

*Systems & Solutions Architecture Professional Certificate (in progress)*

Online

expected July 2026

- Completed Business Process Modeling, Analysis and Improvement (April 2026); IT Systems Design and Analysis.

## SKILLS

---

**School operations:** Google Workspace (Gmail, Calendar, Docs), records and scheduling, parent and stakeholder communication, process mapping (Figma, BPMN), front-of-house intake, event coordination, vendor calendars.

**Enablement:** adult training (EZ-AI), active listening, change management, living product backlogs.

**Care & languages:** EMT patient assessment and personal care (2024); English (native); Spanish (conversational, two years of university coursework and multilingual operations in Barcelona).
