EXPERIENCE

StaffRoom AI

Emeryville, CA

Founder & AI Solutions Consultant

October 2023 - Present

- Run technical discovery with operators: map current systems, assess feasibility, estimate effort, write the SOW, and deliver milestone-gated work for clients up to \$18K.
- Built production Notion API integrations in TypeScript and Python: a public OAuth Connections app, data-source and page workflows, comments polling, and a Whisper-to-Notion pipeline with CI against the live API.
- Work daily in Claude Code against Notion's hosted MCP, ship custom MCP servers, and debug APIs, permissions, and authentication in customer workspaces.
- Automated an IT MSP's pre-sales cybersecurity risk assessments and trained their team to run and extend the workflow. Processing time fell 98% against a measured baseline.
- Designed a Notion-based content-marketing system, enabled the operators, and raised agency production volume 10x.
- Modernized a data-ingestion pipeline. Throughput increased 99.8% in four months and cost fell 86%.
- Published reusable Notion assets: an OAuth Connections quickstart, a sample Worker, a written breakdown of the 2025 data-sources API migration, and a version-controlled workspace mirror with architecture decision records.

Wiz Music

Barcelona, Spain

Community Development Intern

May 2022 - July 2022

- Diagnosed Discord analytics, found reported membership growth was not organic, and raised it with the team.

Valhalla Healthcare

Remote

Machine Learning Engineer (Intern)

May 2021 - August 2021

- Built an ML model from handwritten clinical notes to a structured data model (F1 80.03) using Python and TensorFlow.

IBM

Austin, TX

Data Engineer / Cognitive Software Engineer, Customer Support

August 2018 - December 2020

- Built DRE Bot, a Watson NLP Slack app that surfaced similar past cases to support engineers, cutting the most common issues from a multi-touch case to a single response.
- Designed and deployed IBMLogAnalyze, a GDPR-compliant client-data pipeline and analytics dashboard that eliminated 1-3 hours of log-analysis prep per case.
- Led Design Thinking discovery sessions, launched Tableau and Cognos dashboards for C-level executives, and authored release notes so stakeholders could operate through each change.

EDUCATION

University of Colorado Boulder

Boulder, CO

B.S. Information Science; Major GPA 3.7 | Certificate of Cognitive Science; Dean's List

August 2018 - May 2023

IBM

Online

Systems & Solutions Architecture Professional Certificate (in progress; BPMN, cloud-native, Agile)

expected July 2026

DeepLearning.AI

Online

Deep Learning Specialization | TensorFlow Developer Professional Certificate

2020 - 2021

SKILLS

Discovery & delivery: technical discovery, requirements gathering, solution design, feasibility, SOWs, enablement.

Notion platform: API (OAuth Connections, data sources, pages, comments, webhooks), hosted MCP, permissions and authentication, workspace architecture.

Build: Python, JavaScript / Node.js / TypeScript, SQL, n8n, Claude Code, REST/JSON APIs, data pipelines, Docker.
