EXPERIENCE

StaffRoom AI

Founder & AI Solutions Consultant

Emeryville, CA

October 2023 - Present

- Translate stakeholder objectives into executable plans: discovery with operators, process mapping, specs, and delivery gates the operators who own the process run.
- Automated an IT MSP's pre-sales cybersecurity risk assessments and trained their team to run and extend the workflow. Processing time fell 98% against a measured baseline.
- Post-launch operations: troubleshoot live issues, keep a living backlog, and report measured status to process owners.
- Delivered EZ-AI, problem-first training for domain experts, so operators can judge and extend the system themselves.
- Built Python automations that replaced manual operating steps, then documented them as the team's running procedure.
- Modernized a data-ingestion pipeline. Throughput increased 99.8% in four months and cost fell 86%.
- Designed a content-marketing system and enabled the people running it. Production volume increased 10x.

Wiz Music

Community Development Intern

Barcelona, Spain

May 2022 - July 2022

- Diagnosed the Discord community from its own analytics: segmented churn by tenure and joins by source, identified that reported membership growth was not organic, and raised it with the team.
- Built Python scraping and Chartmetric API automation to streamline artist and investor outreach.

Valhalla Healthcare

Machine Learning Engineer (Intern)

Remote

May 2021 - August 2021

- Built an ML model translating handwritten clinical notes into an extensible data model (F1 80.03), a human-in-the-loop pipeline over unstructured operational documents.

IBM

Data Engineer / Cognitive Software Engineer, Customer Support

Austin, TX

August 2018 - December 2020

- Led Design Thinking discovery to surface business needs, then wrote the release notes and product documentation stakeholders used after each change.
- Launched Tableau and Cognos dashboards that delivered operational status to C-level executives. Built IBMLogAnalyze and cut per-case log-analysis prep from 1-3 hours to none.
- Built DRE Bot, a Watson NLP Slack app that surfaced similar past cases to support engineers during live troubleshooting, cutting the most common issues from a multi-touch case to a single response.

EDUCATION

University of Colorado Boulder

B.S. Information Science; Major GPA 3.7 | Certificate of Cognitive Science; Dean's List

Boulder, CO

August 2018 - May 2023

RC Health Services

Emergency Medical Technician

Texas

2024

Bondi Outdoor Leadership

AIARE 1 Avalanche Safety and Rescue: trip planning, group decision-making, companion rescue

March 2022

IBM

Systems & Solutions Architecture Professional Certificate (in progress)

Online

expected July 2026

- Completed Business Process Modeling, Analysis and Improvement (April 2026); IT Systems Design and Analysis; Cloud Native, DevOps, Agile, and capacity-planning methods.

SKILLS

Planning & operations: translating objectives into executable plans, process mapping, specs, SOPs and training docs, cross-functional coordination, executive status reporting, Python automation. **Judgment under uncertainty:** EMT (2024) patient assessment and radio/team communication; AIARE 1 trip planning and group decision-making (2022). **Build & analysis:** Python, SQL, Tableau, Cognos, n8n, Git/GitHub, Docker, human-in-the-loop workflows. **Languages:** English (native), Spanish (conversational). Complex technical operations, not licensed maritime watchstanding.
